

PARKING

Westpoint operates a strict no parking policy immediately around the Hall, shown as diagonal lines on the plan below and marked with hatched lines on site. (Regulated unloading may take place in these areas during set up days only.) These restrictions are in place to ensure the safety of all persons on the premises.

The area below highlighted with hatched lines indicates the parking spaces reserved for McCaulay's Health Club and are only for the use of those who are members of the Health Club. On site this car park is marked with hatched lines and Health Club signage.

Any cars that are parked illegally will be clamped or removed by Armtrac Vehicle Management; there will be no refunds or exceptions.

We advise all Organisers to ensure their Exhibitors are aware of these regulations before occupation of the site.

Where Organisers choose to ignore the parking regulations they are in breach of contract (see Conditions clause 11, parts 2 and 3).
